**Information Note: 03/2025**

**Subject: Revised Salary scales for General Service staff in Geneva**

**Distribution: All WHO/HQ, ICC and UNAIDS Staff in Geneva**

**Date: 31 January 2025**

In accordance with the procedure currently being applied in the United Nations common system for updating the salary scale for staff in the General Service (GS) category, the net salaries applicable to GS staff in Geneva should be adjusted whenever the Consumer Price Index (CPI) for Geneva moves by either 5% by reference to the index used at the time of the previous adjustment, or once a year, whichever comes first.

Following the movement of the Geneva CPI, the attached GS salary scale Revision 60, effective 1 September 2024, is issued to reflect salaries adjusted upward by 0.8%.

All allowances remain unchanged.

The implementation of the attached GS salary scale Revision 60 was reflected in the December 2024 payroll with retroactive effect from 1 September 2024.
