## Deep Field Personal Computing Module - 1 Staff

Overview

A Tactical Backpack kit that contains everything that a Responder may need to operate or stay in touch during an emergency response. Multiple forms of communications including a mobile satellite system, rugged mobile phone and an Iridium satphone. A solar battery kit is included to be able to operate off the grid.

A very robust shoulder bag is included for carrying all the equipment including a laptop. Kit contains multiple cables, adapters and international travel adapter for self-sufficiency.

Features & Benefits

- Quickly setup your personal mobile office with Voice, Data and Wireless LAN with a Bgan 510.
- In case you need to leave base, take your rugged mobile phone and global Iridium satphone to always remain connected
- The solar kit will easily provide off grid power to all your devices including your laptop
- Rugged smartphone for satellite voice and management (with App)
- Easily carry all your devices and a laptop in a rugged shoulder bag. Leave the Bgan or Iridium satphone in in their Molle Pouch when you do not want to carry it.

Applications

- Field/Mission Travel
- First Responders & Users
- Consultants
- Commuting

Specs & Content

- Backpack: Tactical 29L water resistant 1050D Nylon construction with padded laptop sleeve
- Solar Kit: Voltaic 88Wh battery charger with a 20w foldable panel.
- MSS: Bgan Explorer 510 and Iridium 9555 satphone
- Smartphone: BLU Tank Xtreme 4.0 Rugged Smartphone
- Accessories: Ethernet cables, international travel adapter

**Personal Computing Module - Logician**

## Overview

The kit comes with two Mobile satellite systems that are always ready. Connect to the Internet or make calls to anywhere in the world regardless of the local infrastructure. The included Solar Power Kit powers your laptops, satellite phones, smartphones, USB light, and other DC or USB operated devices as a one-stop power supply in the field. Setup a quick meeting room with the ultra portable and very bright pico projector and ensure that all can hear and talk with the wireless speaker phone.

## Features & Benefits

- Connect to voice and data networks even your local services down
- Built in battery allows for additional mobility when needed
- Rugged case allows easy and worry free transportation or storage
- The solar kit will easily provide off grid power to all your devices including your laptop
- In case you need to leave base, take your rugged mobile phone and global Iridium satphone to always remain connected
- Collaborate from anywhere with video and voice conferencing using the ultra portable projector and wireless speaker system

## Applications

- Emergency preparedness
- Mobile Office
- Emergency Response
- Emergency Operations Hub
- First Response Site Surveys

## Specs & Content

- Cases: One rugged carrying cases with precut foam and TSA locks
- Solar Kit: Voltaic 88Wh battery charger with a 20w foldable panel.
- MSS: Bgan Explorer 710 and Iridium 9555 satphone
- Smartphone: BLU Tank Xtreme 4.0 Rugged Smartphone
- Collaboration: Aaxa M6 portable projector and Jabra 510+ speaker phone
- Accessories: Ethernet cables, international travel adapter

## Solar Power System

<p>Overview</p>	<p>The Team Solar Power System Kit is a mobile energy storage system that can be charged from multiple energy sources such as solar panels, wind turbines, fuel cells or utility power. This kit provides enough power to operate most technical field devices like telecommunications and satellite equipment, networking, computers, printers, or enough power to run a fully outfitted small mobile office.</p>
<p>Features &amp; Benefits</p>	<ul style="list-style-type: none"> <li>• The kit includes a vehicle charging cable and two 125w rugged foldable solar panels with extension cables for improved placement</li> <li>• The solar panels have a 21% efficiency rate. As power requirements grow the system can be upgraded with multiple solar panels up to 800 watts of power.</li> <li>• The energy storage system is a highly advanced 24 Volt Lithium-Ion battery with a starting configuration of 480Wh that can be upgraded to 1920Wh (4 batteries).</li> </ul>
<p>Applications</p>	<ul style="list-style-type: none"> <li>• Emergency Preparedness</li> <li>• Disaster Recovery</li> <li>• Mobile Office</li> <li>• Emergency Response</li> <li>• Emergency Operations Hub</li> <li>• Temporary Office Setup</li> <li>• Consultants and Temporary Assignments</li> </ul>
<p>Specs &amp; Content</p>	<ul style="list-style-type: none"> <li>• Cases: two rugged carrying cases with precut foam and TSA locks</li> <li>• Solar Panel: 2x125W Foldable and Weatherproof.</li> <li>• Solar Power Unit: 480Wh upgradeable to 1920Wh. 1000W continuous power with 2000W peak. Built-in Protection and LCD panel.</li> <li>• Solar Battery: 24v Lithium Iron Phosphate with a nominal capacity of 20Ah (480Wh)</li> <li>• Accessories: surge protector, solar cable extension, spare fuses, international travel adapter, etc.</li> </ul>
<p>Options</p>	<p>Additional cases to upgrade to a total of 4 batteries (1920Wh) and 6 solar panels (750W). Choice of 115v or 230v pure sine wave output.</p>

## Solar Power System Extension

<p>Overview</p>	<p>The Team Solar Power System Extension Kit provides Module 9.1 with an additional 3 Batteries (1,440Wh) and 2 Solar panels (250W). Such that in total, Module 9.1 Team SPS has a total power storage of 1920Wh and a total Solar Input of 750W. This will allow for faster charging in the sun and provide many more hours of usage after sunset. Off-grid hours of operation will depend on the load and daylight hours.</p>
<p>Features &amp; Benefits</p>	<ul style="list-style-type: none"> <li>• The kit includes a multi-voltage power charger to keep the batteries charged when not in use</li> <li>• The solar panels have a 21% efficiency rate and can easily be added to an existing system to increase up to 750 watts of power.</li> <li>• The energy storage system is a highly advanced 24 Volt Lithium-Ion battery that allows for easy stacking to upgrade the storage capacity. Not all batteries need to be stacked, just use what is needed and keep a spare.</li> </ul>
<p>Applications</p>	<ul style="list-style-type: none"> <li>• Emergency Preparedness</li> <li>• Disaster Recovery</li> <li>• Mobile Office</li> <li>• Emergency Response</li> <li>• Emergency Operations Hub</li> <li>• Temporary Office Setup</li> <li>• Consultants and Temporary Assignments</li> </ul>
<p>Specs &amp; Content</p>	<ul style="list-style-type: none"> <li>• Cases: two rugged carrying cases with pre-cut foam and TSA locks</li> <li>• Solar Panel: 2x125W Foldable and Weatherproof.</li> <li>• Solar Battery: 3 x 24v Lithium Iron Phosphate with a nominal capacity of 20Ah (480Wh) each or total 1440Wh.</li> <li>• Accessories: power supply, surge protector, tool kit, spare fuses, MC4 adapters, international travel adapter, etc..</li> </ul>
<p>Options</p>	<p>Choice of 115v or 230v pure sine wave output.</p>
